The **Infinity**, part of the Regal collection, is designed to incorporate all the comfort and technology you have come to expect from IMG. Starting with industry-leading Cold Cured Foam, unmatched for its body support and longevity, we design every recliner to accommodate and cradle the human form. Our sleek designs and Scandinavian scaling, along with up to three sizes, ensures a customized fit to your comfort expectations. The Inline features the Acti-Flex System, our Comfort Glide Reclining System, 360° Swivel as well as a Free-standing Footstool also with Height Adjustability.

BENEFITS

ACTI-FLEX SYSTEM™

Exclusive adjustment system that allows the head and neck support to automatically move forward as you recline. In addition, regardless of position the head and neck support can be manually adjusted to ensure maximum comfort.

The Acti-Flex™ system also adjusts the lumbar support automatically in parallel with the reclining movement. You enjoy perfect support, whether you are sitting in an upright or reclined position.

COMFORT GLIDE RECLINING SYSTEM

With our frictionless patented reclining mechanism you are able to adjust the backrest angle by simply applying your body weight.

360° SWIVEL

With a very smooth 360 degree swivel you can easily rotate the chair in either direction while seated. Our swivel mechanism offers effortless movement and unsurpassed stability.

FREESTANDING FOOTSTOOL

A freestanding footstool is the most comfortable and practical solution for foot and leg support. It can easily be moved and used as additional seating. The freestanding height adjustable footstool features an angled top for enhanced leg support and better blood circulation.

COLD-CURE FOAM CUSHIONING

This space-age material encases the interior steel frame and sinuous springs, allowing for body-friendly curvatures to be covered with glove-fitted leather or upholstery.
